

Risk Assessment & Action Plan

Thank you for completing your risk assessment. You will now have considered the risks that exist throughout your venue, detailed the work that you do and identified additional procedures that you will put in place to manage and minimise the risks of injury to your members, staff, volunteers, and visitors.

Please remember that the risk assessment is only a document and it is essential that you follow this up with real action to ensure that your place to play remains safe and secure. Keep revisiting the risk assessment to ensure that actions are completed as planned and as new hazards are identified, plans are put in place to manage these.
